

## The AA First 3ltr Aquality Overflow CEAQOVERFLOW Operating Instructions

If the alarm sounds, empty the bottle.

- Disconnect the cooler from the electrics
- Remove the lower side panel of the Aquality by rotating the lock (1)
- Separate the overflow water pipe from the overflow container
- Remove the overflow container and empty (2)
- Re-assemble the cooler in reverse order

The alarm will silence once the overflow container has been emptied. Alternatively, you can switch it off manually using the switch attached to the overflow container.

**\*Please remember to switch the alarm back on once you have finished re-installing it.**

**We recommend the use of chlorine tablets in the bottle to help prevent smells.**

**We recommend customers empty the bottles on a frequent basis, to avoid the alarm sounding.**

**We recommend that customers check the alarm battery and replace it if exhausted.**
